

NEED HELP?

We're always happy to help you with thread selection and stitches, whether you purchased the canvas from us or not.

If you need extensive attention, consider

1. A private lesson, one hour for \$35, will give you undivided attention and a strong head start on your canvas, or a leg up on an old project. Scheduled with any of us at your convenience.
2. Studio Time, two hours of semi-private class time that can address specific technical or design concerns, held Wednesday or Thursday afternoons from 2-4 for \$20.
3. Study Hall, every Thursday evening from 5 to 7:30 p.m., or Monday morning from 10 a.m. to Noon. Social stitching—needlepoint, cross stitch, embroidery, or whatever—with companionship and conversation. No charge.
4. And don't forget Needlepoint 1.0, six hours of instruction (and materials) for \$50, the best introductory class in the Bay Area.

ABOUT OUR CLASSES

We try to offer a varied schedule of needlework classes in differing techniques, geared for different experience levels. Education plays an important role in keeping needlework alive and well, so that we stitchers can expand our knowledge, and pass it along to future generations.

Please help support our educational program by registering for classes well in advance, so that teachers will have time to order the right amount of materials (usually from 6-10 different sources with different lead times) without fear of shortages or wastefulness. Your registration is confirmed with receipt of payment in full.

If you cancel at least two weeks in advance, your fee will be refunded or applied to another class. After that, there is no refund or credit for cancellations, although you are entitled to your materials. If for any reason we have to cancel a class, participants will receive full refunds.

Students will receive a 10% discount on all purchases made on the day of class.
